ABOUT US

PRODUCTS

EUROPEAN GROWN

Paradise Fruits – Frozen specializes in providing European grown fruit and berries that are harvested and individually frozen at the peak of perfection.

We offer a range of frozen fruits at different calibrations to meet customer specifications – all are processed in accordance with their seasons and market demand.

Typical uses for frozen fruits include jams and preserves, fruit fillings and toppings, yoghurts, bakery items and freeze-drying.

QUALITY ASSURANCE

We observe world-class quality standards and ensure the highest level of controls through the supply chain – from the grower to you.

- HACCP
- ISO 22 000
- Organic

FROZEN FRESHNESS

Freezing is the best and most effective method of preserving foods. Our products are processed within hours of harvest to maintain maximum freshness. Vitamins, minerals, and fibres are naturally preserved in the frozen fruits including original taste, flavour and colour.

We freeze and prepare a range of fruits in various calibres and forms including whole, broken, grit and chip formats.

FRUITS INCLUDE

- Strawberries
- Raspberries
- Sour Cherries
- Blackcurrants
- Redcurrants
- Elderberries
- Plums
- Bananas
- Apricots
